

Carlton® is proud to introduce its new Micro-Gard™ miniature duct system!

Carlton® Micro-Gard™ is mini-duct that can be installed into empty or occupied duct structures via jetting, blowing or pulling installation methods. Additionally, very small cable, known as micro-cable, can be installed inside the **Micro-Gard™** product via the same methods. **Micro-Gard™** is available in a range of sizes.

Pricing information is provided below. Contact your Carlton® stocking distributor or Carlton® sales representative at 1-800-3CARLON, and ask about a new and economical way to expand your existing duct systems. For further information, also visit the Carlton® website at www.carlon.com.
